Volume 18 1994

Progress in Physical Geography

Article and progress report index

A qualitative view of sub-ice-sheet landscape evolution *John Shaw* 159
Applied climatology *Jeffrey C. Rogers* 271
Arid geomorphology *Nicholas Lancaster* 97
Arid geomorphology 1994 *Nicholas Lancaster* 582
Beaches and dunes of human-altered coasts *Karl F. Nordstrom* 497
Biodiversity – measurement *Kevin J. Gaston* 565
Chronostratigraphy of glaciations and permafrost episodes in the Cordillera of western North America *Stuart A. Harris* 366
Climate and environmental change at high northern latitudes *Leif Kullman* 124
Climatic geomorphology: a critique *C.R. Twidale* and *Y. Lageat* 319
Dating methods *William C. Mahaney* 136
Environmental issues *Chris Park* 411
Explanations for biogeographic tracks across the Pacific Ocean: a challenge for paleogeography and historical biogeography *Ronald Sluys* 42
Floristic plant geography: the classification of floristic areas and floristic elements *Steven P. McLaughlin* 185
Fluvial geomorphology *Bruce L. Rhoads* 588
Fluvialism or diluvialism? Changing views on superfloods and landscape change *R.J. Huggett* 335
Global terrestrial vegetation 'prediction': the use and abuse of climate and application models *A. Henderson-Sellers* 209
Global warming *Mike Hulme* 401
Ice in the shore zone and the geomorphology of cold coasts *D.L. Forbes* and *R.B. Taylor* 59
Imaging spectrometry *Paul J. Curran* 247
Isotope hydrograph separations and rapid delivery of pre-event water from drainage basins *J.M. Buttle* 16
Long-term study of the natural environment – perceptive science or mindless monitoring? *T.P. Burt* 475
Progress in arid lands rainfall-runoff modelling *A.S. El-Hames* and *K.S. Richards* 343
Progress in the use of drainage network indices for rainfall-runoff modelling and runoff prediction *Geraldene Wharton* 539
Radiation and energy budgets of Alpine tundra environments of North America *I.R. Saunders* and *W.G. Bailey* 517
Remote sensing *Kevin White* 295
Savanna formations: ecology and environment *Peter Furley* 276
Sea level *Colin Woodroffe* 436
Slopes and slope processes *Robert J. Allison* 425
Tropical rain forests *D.M.J.S. Bowman* 575
Use of satellite-based sensing in land surface climatology *David Greenland* 1

Author index

Allison, Robert J.: Slopes and slope processes 425
Bowman, D.M.J.S.: Tropical rain forests 573
Burt, T.P.: Long-term study of the natural environment – perceptive science or mindless monitoring 475
Buttle, J.M.: Isotope hydrograph separations and rapid delivery of pre-event water from drainage basins 16
Curran, Paul J.: Imaging spectrometry 247
El-Hames, A.S. and Richards, K.S.: Progress in arid-lands rainfall-runoff modelling 343
Forbes, D.L. and Taylor, R.B.: Ice in the shore zone and the geomorphology of cold coasts 59
Furley, Peter: Savanna formations: ecology and environment 276
Gaston, Kevin J.: Biodiversity – measurement 563
Greenland, David: Use of satellite-based sensing in land surface climatology 1
Harris, Stuart A.: Chronostratigraphy of glaciations and permafrost episodes in the Cordillera of western North America 366
Henderson-Sellers, A.: Global terrestrial vegetation 'prediction': the use and abuse of climate and application models 209
Huggett, R.J.: Fluvialism or diluvialism? Changing views on superfloods and landscape change 335
Hulme, Mike: Global warming 401
Kullman, Leif: Climate and environmental change at high northern latitudes 124
Lancaster, Nicholas: Arid geomorphology 97
Lancaster, Nicholas: Arid geomorphology 1994 582
Mahaney, William, C.: Dating methods 136
McLaughlin, Steven P.: Floristic plant geography: the classification of floristic areas and floristic elements 185
Nordstrom, Karl F.: Beaches and dunes of human-altered coasts 497
Park, Chris: Environmental issues 411
Rhoads, Bruce L.: Fluvial geomorphology 103
Rogers, Jeffrey C.: Applied climatology 271
Saunders, I.R. and Bailey, W.G.: Radiation and energy budgets of Alpine tundra environments of North America 517
Shaw, John: A qualitative view of sub-ice-sheet landscape evolution 159
Sluys, Ronald: Explanations for biogeographic tracks across the Pacific Ocean: a challenge for paleogeography and historical biogeography 42
Twidale, C.R. and Lageat, Y.: Climatic geomorphology: a critique 319
Wharton, Geraldene: Progress in the use of drainage network indices for rainfall-runoff modelling and runoff prediction 538
White, Kevin: Remote sensing 295
Woodroffe, Colin: Sea level 436

Classics in physical geography revisited

Bagnold, R.A. *The physics of blown sand and desert dunes.* Haim Tsoar 91
Carter, C.S. and Chorley, R.J. 1961: Early slope development in an expanding stream system. *Geographical magazine* 97, 117–30. Barbara A. Kennedy 397
Lamb, H.H. *Climate: present, past and future. Volume 1. Fundamentals and climate now. Volume 2. Climate history and the future.* P.A. Smithson 267
Linton, D.L. 1955: The problem of tors. *The Geographical Journal* 121, 470–87. John Gerrard 559

Book review index

Ager, D.V., *The nature of the stratigraphical record* (reviewer: Heather Viles) 453
Agnew, C. and Anderson, E. *Water resources in the arid realm* (reviewer: A.S. Goudie) 143
Aiken, S.R. and Leigh, C.H. *Vanishing rain forests: the ecological transition in Malaysia* (reviewer: S.M. Brooks) 305
Allen, J.F.R. and Pye, K., editors, *Salt-marshes: morphodynamics, conservation and engineering significance* (reviewer: Heather A. Viles) 144
